

VITAL LOCATE

REAL-TIME GPS TRACKING AND SAFETY MONITORING.

Vital Locate is a cloud-based application that integrates with a wide range of devices, including digital radios, to support your work and help keep workers safe.

HEALTH & SAFETY.

- Monitor the safety of your frontline workers across NZ.
- Set up emergency alerts, lone worker check-in timers and man-down alerts to keep your team safe.
- Customize your emergency alert triggers, from emergency buttons and timers to GPS and impact detection.
- Tailor alerts to start a group radio call, phone call or send a message via dispatch console, SMS and email.
- Know the incident type, timeframe, status, location, and personnel involved as soon as you receive an alert.

KEEP TRACK OF YOUR ASSETS.

- Track your workforce and asset location in real time.
- See all your assets and devices on one easy to navigate map.
- Use colour-coded geofencing to monitor when a device or vehicle enters or leaves a specific site.
- Monitor machinery or vehicle speed, idle time, and performance.
- Pull detailed reports quickly and easily, whether you're after timesheet data or information for insurance claims.

DIGITAL RADIO

CONNECTING BUSINESSES THROUGHOUT NZ

At Vital, we build networks that keep businesses connected and their people safe. Our Digital Radio Network is NZ's largest commercial radio network.

COVERAGE WHERE YOU NEED IT.

With coverage throughout NZ, our digital radio network is available wherever you need it. Contactors and businesses on the Vital Digital Radio Network have clear communications at the touch of a button – even in remote parts of the country.

ROBUST AND RELIABLE.

No matter what the weather is doing, our digital radio network has your back. Vital's radio networks are designed to hold up in extreme conditions, supported 24/7 by our Wellington NOC and field teams across NZ.

DO MORE WITH DIGITAL RADIO.

Digital radio offers businesses a whole lot more than voice communication. With group calling, text messaging, emergency alerts and GPS tracking, digital radio makes it easy to monitor and coordinate work quickly.

PROUD TO PARTNER WITH NEWLANDS.

Call 0800 153 771 and talk to the team at Newlands to learn more about digital radio and Vital's Digital Radio Network.
